## ABOUT WARDLAW

Led by a management team formed of the industry's best field adjusters, Wardlaw's unique focus on training, technology, and quality has been providing insurance carriers with confident IA service since 1965.

## More than 40,000 square feet dedicated to state-of-the-art training, labs, and more

Over the past decade, training has become a key part of the Wardlaw experience. What began as a series of two or three-day courses created in the late 1990s for a major client has grown into a dedicated training program established in 2004.

On word-of-mouth advertising alone, our training has proven quite successful—so much so that we outgrew our original offsite training facility. We decided to build one of our own, onsite, and in February of 2008, we moved into the Wardlaw Training Campus. Yes, that's right—we built an entire campus. At 43,000 sq. feet, there is nothing quite like it in the industry.

Let's take a quick tour:

Insurance adjusters can't process catastrophic claims without reliable systems. Our **data center** can withstand any storm, and features state-of-the-art fire suppression, redundant systems, and eight-inch thick concrete walls and ceiling.

Our **auditorium**, Hurricane Hall seats up to 400 for large classes and conferences.

Up to 15 vehicles fit into our **auto lab**, where hydraulic lifts enable students to fully assess damage.

One of our three large classrooms is a **dedicated computer lab**, with 70 PCs loaded with industry-standard software.

An **onsite communications center**, able to accommodate 70 agents, enables us to provide Fast Track Adjusting and call center services.

A full-scale, **1,200 sq. foot cutaway house**, constructed inside our spacious property lab and featuring two bedrooms and one bathroom, provides students with real-world property adjusting experience.

### What the Wardlaw Training Campus Includes

---

<i>Executive offices:</i>	<i>7,000 sq. feet</i>
<i>Data center:</i>	<i>2,200 sq. feet</i>
<i>Auto lab:</i>	<i>4,000 sq. feet</i>
<i>Property lab:</i>	<i>4,000 sq. feet</i>
<i>Call center:</i>	<i>3,000 sq. feet</i>
<i>Classrooms:</i>	<i>4,500 sq. feet</i>
<i>Hurricane Hall Auditorium:</i>	<i>4,000 sq. feet</i>

---

*continued*

Our administrative offices include our management team's situation room during catastrophic events, providing centralized, well-orchestrated management and field response no matter how large the catastrophe.

Of course, an excellent training campus is only as good as the courses taught within its walls. Wardlaw believes training will be the cornerstone of the adjusting industry for years to come, so we offer year-round classes to give students practical, hands-on instruction—and to give us a chance to hand-pick the best to staff the Wardlaw team.
